

Power outlet with touch switch is applied to a wide range of industry for commercial and residential buildings.

Series of Power Outlet with Touch Switch

Feature:

- ✓ Capacitive touch technology On/Off Button, gently touch function can be realize
- ✓ Ultra thin design tempered glass panel, elegant and decent
- ✓ Integrated design, easy to install, high reliability
- ✓ Fire resistance grade VII
- ✓ CE approval

Technical Parameter:

- | | |
|------------------------------------|-------------------------------|
| ➤ Working Voltage: | AC220±10%, 50HZ |
| ➤ Working Environment: | -5℃~50℃ |
| ➤ Storing Environment Temperature: | -10℃~60℃ |
| ➤ Current load: | <16A (resistive load) |
| ➤ Power Consumption: | <1W |
| ➤ Wire diameter: | ≥1.45 mm ² (15AWG) |
| ➤ Grade of protection: | IP53 |
| ➤ Shell Material: | Fire resistant PC |
| ➤ Installation: | standard 3X3" box |
